ENLENS WELCOMES PROJECT PROPOSALS FOR 2024

ENLENS

Feb 9 · 2024

The research priority area 'Energy transition through the lens of Sustainable Development Goals' (ENLENS) is pleased to announce its third call for project proposals. ENLENS brings together researchers working on the environmental, economic, technological, social, political, and business aspects of the energy system, the energy transition, and Sustainable Development Goals. We invite innovative and impactful project proposals that contribute to advancing our understanding and fostering sustainable practices in these key areas.

With this call, ENLENS aims to offer initial funding for cross-faculty initiatives, creating new opportunities for researchers to apply their expertise in an

interdisciplinary approach. The goal is to facilitate the development of joint proposals for securing external research funding.

Application deadlines: 1 April and 1 October, but intermediate submissions are also considered.

Each faculty is eligible for funding up to **€15,000**, with an additional **€15,000** available for data acquisition/preparation if well justified, resulting in a maximum funding cap of **€45,000** per project.

To access instructions and the application form for **2-page proposals**, click on the button below:

ENLENS - Call for proposal

FUTURE OF ENERGY SEMINAR

The next Future of Energy Seminar is scheduled for Monday, 12 February 2024, from 12:00 to 14:00 (including a light lunch), at the Institute for Advanced Study (IAS - UvA) – for on-site attendees only.

Presentations:

Title: “The energy transition through a climate law and governance lens”

by Matteo Fermeglia

Title: “A complexity study of electric vehicle charging for transport decarbonisation”

by Michael Lees

To participate, **please RSVP by 9 February**, by clicking on the link below:
